

SEND POSTCARDS TO SPACE

TRY NEW

COSMIC CHOCOLATE

As more people live and work in space, new jobs, businesses, and creative ventures will arise, contributing to a new space economy that hasn't yet been designed or dreamed up. Think about how an architect might design a new colony, how the creation of new materials that can only be made in microgravity might enable new forms of transportation, or how

a galactic restaurant might 3D print your food while you wait. Your creative business ideas could spark new markets in technology, entertainment, and daily living.

WHAT WOULD YOUR NEW MENU ITEM LOOK LIKE?

YOUR MISSION: Imagine you are the head chef of a fast-food restaurant in space! What new dish would you create using ingredients from different planets? Once you have developed your idea, draw your new food item on Club for the Future's "Send Art to Space" tool at draw.clubforfuture.org and Club for the Future will send your art to space on a Blue Origin Rocket! Once flown, you can find it on the digital art gallery.

TEACHER LESSON PLAN - SEND POSTCARDS TO SPACE

SPACE ADVERTISEMENT

INTRODUCTION

Opportunities for innovation in the space economy are increasing rapidly. A variety of careers in space are currently available but many more new careers in the space industry will arise as more and more people will be living and working in space. Even more exciting is the reality that your students will have the opportunity to create their own careers. In this lesson, students will take on the role of a head chef creating a new fast-food menu item for a restaurant in space. Students will create artwork for this new item and use it to describe their idea.

LEARNING OBJECTIVE

Create artwork for a new menu item you create using ingredients from different planets and use it to describe your idea.

INSTRUCTIONS

- Develop an idea for a new menu item for a fast-food restaurant in Space using ingredients in space.
- Create artwork for showcases your new menu item and your idea.
- Use your artwork to present your idea.
- Finalize the artwork and send it to space
- Tune in to watch the launch event.

LESSON EXTENSION

- How will you sell your new menu item? How will you encourage people to come to your new restaurant in Space?
- What other businesses should there be in space?

STANDARDS

CCSS.ELA-Literacy.SL.6.5

Presentation of Knowledge and Ideas:

Include multimedia components (e.g., graphics, images, music, sound) and visual displays in presentations to clarify information.

ISTE

6d - Students publish or present content that customizes the message and medium for their intended audiences.

NCAS

VA:Cr2.3.7 Apply visual organizational strategies to design and produce a work of art, design, or media that clearly communicates information or ideas.

REFLECTION

- Ask students to share their ideas for their new menu item on Club for the Future's "Send Art to Space" platform at draw.clubforfuture.org.
